

Our site is <https://example.com> and the docs are at https://docs.example.com/a_b.

A trailing full stop belongs to the sentence: <https://example.org/page>.

In brackets (<https://example.net/x>) and in quotes "<https://example.io/y>".

Bare host: www.example.co.uk, and another one www.example.travel.

Write to sales@example.com or to first.last+tag@mail.example.org.

Version 1.2.3 is not an address, and neither is the footnote marker 4.

Already linked: <https://linked.example.com/here>

Page two has <https://second.example.com/one> and <https://second.example.com/two>.

And a long path <https://second.example.com/a/b/c?d=e&f=g#h> that must survive intact.
